

## **Discussion Notes**

**Reviewing entity:** Team Philanthropy

**The main view upon loading seems too “buttony”.**

*Suggestion:* Develop a layout that is more aesthetically pleasing than this.

*Probable Course of Action:* Talk it over with Dori (Client) and see if number of buttons can be reduced

**Add event/time to calendar is considered a great feature.**

**The non-probability of an integrated ticket ordering system is questionable, but there is (probably) no sufficient solution.**

*Probable Course of Action:* Talk it over with Dori (Client) and see if better implementation is possible

**Walking/driving directions to different venues is suggested and then shown to already be implemented in the next slide.**

**Cleaner and less bogged down interface suggested.**

*Suggestion:* Add an essence of minimalism to the current conglomeration.

*Probable Course of Action:* Get rid of some of the buttons. “Less is more”

**Advertisements seem a little large and oddly placed.**

*Suggestion:* Tone them down a little.
